

# LUIS QUIROZ SCHLEMM, SOFTWARE DEVELOPER

Cd. Juárez, Chihuahua, México | **Willing to relocate**

Phone : 656-138-21-72

Email: luis.quiroz90@gmail.com

In my role as a software developer, my primary objective is to engineer efficient solutions while prioritizing an exceptional user experience. I am committed to crafting software that not only meets technical requirements but also enhances the overall usability and satisfaction of end-users. My dedication to achieving these goals is unwavering, as I consistently aim to push the boundaries of what is possible in the ever-evolving field of software development.

By combining my passion for technology with my drive to innovate, I am confident in my ability to contribute meaningfully to your team and help drive your projects toward success.

## Experience

### Quanto | Developer

July 2023 - August 2023

- Generate comprehensive documentation on technical and functional aspects of projects, synthesizing complex information in a manner accessible to all team members.
- Created conceptual sketches of user interfaces, overcoming the challenge of visualizing and effectively communicating the user experience.
- Identified critical elements of the software and translated them into understandable technical specifications for the development team.
- I led functionality and integration testing, addressing the challenge of ensuring software quality. In addition, I performed user testing to validate customer satisfaction, contributing to successful deliveries.

### Sistemas Perseo SA de CV | Software developer

November 2021 - April 2023

- Undertook the challenging task of upgrading systems developed in C#, VB and ASP.NET to comply with the requirements of version 4.0 of the SAT's Digital Tax Receipt (CFDI) for electronic invoicing. This involved a deep knowledge of tax regulations and strong technical skills to ensure compliance and proper functionality.
- Assumed responsibility for modifying existing software systems to improve performance and add new functionality. This required meticulous evaluation of existing problems and implementation of effective solutions that increased application efficiency and usability.
- Led web development projects using Angular and .NET or .NET Core, with integration to SQL Server.
- Actively collaborated in defining, designing and estimating time and resources for development initiatives, contributing to the design of both front-end and back-end solutions.

## Skills

C#, VB, Java	Angular 13+, MCV, React, .NET Springboot, Spring Data JPA	Jira
HTML, JavaScript, TypeScript, CSS	API Rest, SOAP	Agile Development Methodology
MySQL, SQL Server	SVN, GitHub	

## Education

**Tecnológico Nacional de México Campus**  
**Instituto Tecnológico de Ciudad Juárez**  
Computer Systems Engineering

August 2018 - June 2023

## Certificates

**SCRUMStudy**  
Scrum Fundamentals Certified

July 2023

Competencies		
Problem Solving	Continuous Learning	Stress Resilience
Logical Thinking	Time Management	
Attention to Detail	Ethics and Responsibility	

Languages
-----------

**Spanish:** First language.

**English:** B2.
